SUMMARY

- A Software Engineer with 1.5 years of experience in Software Testing with a strong understanding of SDLC and STLC .
- Experience in Manual & Automated including smoke testing, Sanity testing, Functional testing, Integration testing and Regression testing, Black Box testing.
- Good experience in creating test scripts using WebDriver, Selenium-IDE, Selenium Grid in Java.
- Good Knowledge of Object Oriented programming Concepts(OOPS) and Java Skills.
- Extensive experience in writing and executing test plan, test strategy report bugs.
- Well versed with database concept and experience in using SQL statements.
- In depth knowledge of Data structures and Algorithms.
- Excellent communication, problem-solving skills, coordination, documentation.
- Experienced in the Fast-paced environments like Agile and Scrum Methodologies.

SKILLS

Testing Artifacts	Test Strategy, Test Plans, Test Cases Defect Summary Report, Selenium WebDriver, Selenium IDE, TestNG Framework, Katalon studio.
Front-End Technologies	HTML/HTML5, CSS/CSS3, JavaScript.
Technologies	C, C++, Java, Android, PHP, C#
Databases	Oracle, MySQL, SQL Server, SQLite.
Testing Tools	Test Link, Bugzilla, JIRA
Software & Tools	Bitbucket, GIT, Eclipse, Visual Studio, Trello, MS Office, Team Foundation Server(TFS), Android Studio.
Environments	Agile, Scrum, Waterfall, Iterative

WORK EXPERIENCE

Triveni Global Software Services LLP , India

Mar'18 - Feb '19

Software Tester

Project Title: Flextron Circuit Assembly

Description: FJT is an enterprise resource planning system which provides Quote, Purchase, Inventory tracking, Manufacturing facilities to build your Assembly in right way.

Responsibility:

- Understanding the Client Requirements and functionality of the system.
- Developed and executed all QA artifacts i.e. test plans, detailed test-cases, traceability matrix.
- Designed, executed and maintained Selenium Web Driver (TestNg) & Selenium IDE automated test cases for regression test cases.
- Designed and execute scripts using Katalon Studio.
- Performed Integration testing, Regression testing, Negative testing, End to End testing, System Testing.
- Preparing Defect Report and assigning the defects to developer.
- Performed Database Testing and thorough knowledge in SQL/PL SQL.
- Delivering timely estimates of testing tasks and scope work.

Project Title: Hydreight:

Description: Hydreight has been helping visitors and locals of Las Vegas stay hydrated through intravenous therapy with our mobile services that treats you in your room or home through the Qualifies IV Specialist.

Responsibility:

- Report problems in the applications using bug tracking software such that solutions can be reproduced, scheduled and prioritized
- Ensure 100 % test coverage and execution. Think proactively in finding bugs and failures
- Responsible for all aspects of testing of Mobile applications related to network
- Perform functional, integration, and regression testing on mobile devices and web-based applications
- Work with the product team on user acceptance testing

- Drive high-quality development via acceptance criteria and automated or manual testing
- Executing test cases manually and prepares daily execution report.

Seed Info Tech , India

Aug '17 - Feb '18

Software Testing Trainee

- Trained in Manual Testing and Automation Testing(Selenium Web-drivers).
- Test various scenarios using manual and automation testing.
- Tracked software bugs and detailed all information regarding findings and resolution techniques in documentation.

N G Patel Polytechnic , India

Dec '16 - Aug '17

Lecturer in Computer Department

- Produce training schedules and classroom agenda.
- Devise technical training programs according to College/ curriculum requirements.
- Determine course content according to objectives.
- Execute training sessions, seminars, workshops etc. in groups or individually.
- Observe and evaluate results of training programs.

Gujarat Technological University, India

June '15 - June '16

Academic Project:Smart EIS (Educational Information System)

- Web Application: Front End: ASP .NET
- Mobile Application: Android
- Back End: MS SQL and SQLite
- As our system provides access to only authorized users, the sharing of data is safe. This also keeps users informed about various events as well as other activities of institute. It allows users to give online examination which is conduct by faculties. Students can also view their results online. Students can receive notification about their exam timetable and study material of institute by android application.

Gujarat Technological University, India

Jan '13 - June '13

Academic Project:Study Spot

- Front End:PHP
- Back End: SQL
- “Study Spot” is basically for sharing data and material in the institute between students and faculties. It will provide latest updates about the college like upcoming events, past events photos, exam Schedules, syllabus and other study material uploaded by faculties. Students can also chat with other students and faculty.

CERTIFICATES

Seed Certified in Manual and Automation Tester(Selenium with Java).

Certified in Tosca (Automation Specialist – Level 1) by TRICENTIS.

Developed website for Technical fest of Engineering college.

EDUCATION

ISI, L'institut Supérieur D'Informatique, Montreal,Canada

Jan '20 - Present

Post Graduate Certification

Programming And Web Technologies

Gujarat Technological University, India

Aug '13 - June '16

Bachelor of Technology (B.E)

Overall GPA: 7.67/10.00

Department of Computer Science & Engineering

Gujarat Technological University, India

Aug '10 - June '13

Diploma in Engineering

Overall GPA: 7.69/10.00

Department of Computer Engineering
